I. PROJECT

1. Project objectives

Main objective of the project was dissemination of good practices related to the mobility of students, academic and administrative staff members, as well as developing of theses and assumptions to be followed supporting international student mobility between universities.

Cooperation of the universities within the project aimed at widening and developing knowledge, skills and competencies of project participants, especially in the field of:

- increasing professional competencies,
- increasing their self-esteem and self-confidence,
- improving foreign language proficiency,
- developing key social competences due to the cooperation in international environment,
- increasing attractiveness in workplace and labour market,
- improving teaching skills (teachers),
- enriching materials and educational aids.

Cooperation within the project is also aimed at:

- developing and realisation of international strategy of participating universities,
- increasing of education level and quality,
- comparing and improving of educational curricula, and in case of Partner Universities, adjusting educational programs to European standards - Benchmarking
- working on common educational programmes for master's students,
- preparing of programmes for double diplomas with Partner Universities,
- developing and exchange of cooperation proposals in the field of research activities which can result in international scientific projects and joint scientific publications.

Exchange of experience and good practices contributed to developing and disseminating ideas about studying abroad, indicating sources of funding for academic international exchange, representing of good practices developed in the Universities.

Problems related to social, legal, environmental barriers and ways of their solution have also been discussed.

Cooperation between the Universities definitely contributed to increase of their prestige on regional and local educational markets.

All objectives of the project have been achieved!

2. Participating universities

a. Poland

- **Wyższa Szkoła Ekologii i Zarządzania w Warszawie**
(University of Ecology and Management in Warsaw)

University of Ecology and Management in Warsaw (UEM) is one of the best private technical – artistic universities in Poland. UEM, established upon the decision of the Ministry of National Education of 18 July 1995 and registered under number 62, more than 25 years conducts education on full time and part time bachelors and masters studies.

Education at the University is conducted within two Faculties: Faculty of Architecture and Faculty of Engineering and Management, on which it is possible to study on 10 fields of studies.

Mission of University of Ecology and Management in Warsaw is high quality, modern and flexible education of studies:

- ready to meet the developmental needs of information society and the knowledge-based economy,
- enriching with their professionalism and intellectual mobility human capital of Masovia, Poland and EU,
- creating new economic, social and cultural values in the spirit of idea of sustainable development, according to expectations of current and future labor market.

University authorities pay attention to the high level of education hiring more than 300 specialists from different fields. Lecturers of UEM are not only scientific workers of other universities in Warsaw, but also practitioners possessing business experience. Due to combination of knowledge of lecturers and representatives of Faculty Councils of Employers, with whom programmes of studies are being discussed (according to European standards), studies in UEM are interdisciplinary, combine theory with practices, due to which are conducted with the application of design approach, teach students independence and ability to take responsible decisions.

b. Armenia

- **ՃԱՐՏԱՐԱՆԵՏՈՒԹՅԱՆ ԵՎ ԴՇԱՐԱՐՈՒԹՅԱՆ ՀԱՅԱՍՏԱՆԻ ԱԳԱԽԻՆ ՀԱՄԱՐԱՆ**

(National University of Architecture and Construction of Armenia)

The National University of Architecture and Construction of Armenia (NUACA) is a higher school of Architecture and Construction that was founded in Yerevan in 1921. It is a technical school which has been in operation for nearly 100 years. The university consists of five faculties: Architecture, Design, Construction, Urban Economy and Ecology, and Management and Technology. Moreover, NUACA is the only university in Armenia preparing architects and construction engineers.

The internationalisation strategy of NUACA testifies its strong commitment to the promotion of sustainable development of international relations for educational, scientific, and technical cooperation. The strategy also includes actions to develop the cooperation with architectural and construction-oriented universities abroad, intending to organise joint conferences, student project weeks, contests, and the promotion of academic mobility of teaching staff and students.

NUACA has participated in 17 TEMPUS, Erasmus Mundus, and currently Erasmus+ projects. Three Erasmus+ KA2 projects are ongoing: HERITAG, InnoCENS, and Iacobus+. As well as two KA1 projects with Universidade de Lisboa and the University of Alcala are currently active. NUACA has accomplished some EU-funded mobility projects: Erasmus Mundus Infinity project and Erasmus+ KA1 with the Polytechnic University of Milan.

Besides, NUACA is actively implementing student exchange projects in the framework of Cooperation Agreements signed with European partner Higher Educational Institutions from Poland, Spain, Udine, etc.

Azerbaijan

- **Azərbaycan Texnologiya Universiteti**

(Azerbaijan Technological University)

The Azerbaijan University of Technology (UTECA) was founded in complying with the execution of the Decree of the President of the Azerbaijan Republic dated 13.06.2000 on "Improvement of the Education System in the Republic of Azerbaijan" via expanding the branches of the Azerbaijan Technological Institute by the order No. 691 of the Minister of Education of the Azerbaijan Republic dated 11.07.2000.

The UTECA was established on the initiative of the National Leader Haydar Aliyev based on the Kirovabad branch of the Azerbaijan Polytechnic Institute named after Ch. Ildirim through adjoining the Baku branch of the Krasnodar Polytechnic Institute and "Technology of wine making" specialization of the Azerbaijan Agricultural Institute by the decision of the Council of Ministers of the USSR №202 dated 22.02.1979 according to the edict №206 issued on 10.07.1980 by the Council of Ministers of the Az SSR.

The Azerbaijan University of Technology was awarded the Honorary Decree of the Ministry of Higher and Secondary Special Education of the Azerbaijan SSR and the Republican Trade Union Committee due to winning second place in the competition held in 1982 among the universities of the Republic paired with occupying the first place in 1983-1984. Meanwhile, in 1984 the University was awarded the Red Cross Banner of the Central Committee of the Communist Party of Azerbaijan, the Council of Ministers of the Azerbaijan SSR, and the LC G C of Azerbaijan.

Currently, there are 4 faculties, 17 departments, postgraduate and graduate departments, scientific research division, preparation course, two scientific research laboratories, English Language Resource Center, library, Information Computing Center, medical center, 3 catering, 4 production-experimental facilities, gym (area 1000 sq. m) and student campus.

The UTECA is preparing highly qualified engineers and technologists in the fields of food, textile and light industry, tourism, logistics, metallurgy, ICT technicians. Scientific researchers at the university are mainly focused on the directions of environment, technology, and engineering economics.

c. China

▪ 山东建筑大学

(Shandong Jianzhu University)

The Shandong Jianzhu University (SJU), which was jointly established by Shandong Province and the Ministry of Housing and Urban-Rural Development, was found in 1956. The University currently has more than 27,00 full-time students (including more than 200 international students). SJU is located in Shandong Province, the birthplace of Confucian culture. Shandong is an important province in terms of culture and economy on the east coast of China.

The SJU has become a well-known university with a long history, profound cultural heritage, strong academic strength, and extensive international influence. It is an ideal institution for students at home and abroad to pursue further study.

The campus covers a land area of more than 160 hectares, with a building area of more than 660,000 square meters. The university includes 20 schools and 4 institutes. It provides 58 undergraduate programmes, 1 postdoctoral programme, 1 PhD programme, 17 first-level master's programmes, 62 second-level master's programmes, and 9 professional master's programmes.

The university is also one of the first authorized universities that are eligible to recruit international students in China. The university attaches profound importance to international exchanges and cooperation. With an open mind, the university has established partnerships with more than 80 universities from over 30 countries and regions, including Australia, the USA, New Zealand, the UK, Canada, and so on. Currently, eight undergraduate joint programmes and more than 20 students exchange programmes have been established.

e. Kosovo

- **Universiteti i Shkencavete Aplikuara ne Ferizaj**
(University of Applied Sciences in Ferizaj)

University of Applied Sciences in Ferizaj (UASF) was established in July 2015 by the Parliament of the Republic of Kosovo following a 40-year tradition of professional and applied science education of the Faculty of Applied Sciences in Ferizaj, part of the University of Prishtina.

With the decision of the Assembly of Kosovo in July 2015 was establish University of Applied Sciences which since then operate 4 faculties:

- Faculty of Management,
- Faculty of Tourism and Environment,
- Faculty of Engineering with Informatics,
- Faculty of Architecture, Design and Wood Technology.

Their mission is to work along with the students and staff alike to develop collaborative activities with local partners (by involving them in the development process of the University) as well as foreign partners (European universities of applied sciences, etc.) through the mobilisation of students and teachers, for the purpose to utilise all internal resources (human and material) to create a sustainable link between local and regional economic needs and the permanent growth of quality education.

The vision is to become the largest and reputable institution in the region specialised in applied science as well as higher professional education programmes in several areas and expertise, to provide trained and highly qualified professionals to local as well as regional businesses and industries.

Currently at University are studying 1790 students in bachelor and master programmes. There are 61 professors, and 8 administrative staff employees. The number of graduates so far is over 2500.

- **Киевский политехнический институт имени Игоря Сикорского**

(National Technical University of Ukraine “Igor Sikorsky Kyiv Polytechnic Institute”)

Kyiv Polytechnic Institute (since 2016 – National Technical University of Ukraine “Igor Sikorsky Kyiv Polytechnic Institute”) was founded in 1898 and is one of the oldest technical universities of Ukraine, Europe, and the world.

At present, Igor Sikorsky KPI is a national autonomous state higher education institution of research type. Igor Sikorsky KPI educates students in different areas of economics and the social sphere, 118 specialties in general. They train candidates (Ph.D.) and doctors (D.Sc.) in priority areas: Energy, Engineering, Information Technology, Information Security, Electronics, Telecommunications, Space Systems, Chemical Technology, and Biotechnology.

The training process is carried out by experienced teachers and well-known NASU scientists. Igor Sikorsky KPI comprised 19 faculties, 19 faculties, 9 educational and scientific institutes, several scientific and research institutes, and educational centres, in which more than 21 000 students are training. KPI employs more than 500 professors and over 1300 associate professors.

Igor Sikorsky KPI has trained 370 thousand graduates over its history of 117 years, 60 thousand of which during the period of Ukrainian independence. KPI ranks 4% of the best universities of the world according to the international rating QS and Webometrics. It annually holds the highest positions among the best higher educational establishments of Ukraine – “Compass” and “TOP-200 Ukraine”.

Igor Sikorsky Kyiv Polytechnic Institute cooperates with technical universities of dozens of world countries, a lot of international organisations (UNESCO, UNIDO, WIPO, NATO, EDNES, ICSU, CODATA, etc.) and the most leading corporations and firms (SIEMENS, FESTO, SAMSUNG, INTEL, etc.), takes part in international educational, scientific projects and programmes.

| MOBILITIES IN TOTAL | | | 5 | 11 | 9 | 25 |
| *mobilities have not been implemented because the outbreak of COVID-19 pandemic | | | | | | |

University of Ecology and Management in Warsaw within the project from 01.06.2018 to 31.07.2021 hosted in total 18 students, teaching and administrative staff members:

- five students – 1 student from the National University of Architecture and Construction of Armenia, 1 student from the Azerbaijan Technological University, 1 student from the University of Applied Sciences in Ferizaj, 1 student from the University of Niš and 1 student from the National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute";
- six academic staff members – 1 from the Azerbaijan Technological University, 1 from the Shakarim State University of Semey, 1 from the University of Applied Sciences in Ferizaj, 1 from the University of Niš, 1 from the National University of Environmental and Life Sciences of Ukraine, 1 from the Berdyansk University of Management and Business;
- seven administrative staff members – 2 from the National University of Architecture and Construction of Armenia, 2 from the Shakarim State University of Semey, 1 from the University of Applied Sciences in Ferizaj, 1 from the University of Niš, 1 from the Sumy State University.

Five academic staff members of UEM conducted lectures for students of Partner Universities – 2 in the National University of Architecture and Construction of Armenia, 1 in the Azerbaijan Technological University, 1 in the University of Applied Sciences in Ferizaj, and 1 in the University of Niš.

Two administrative staff members of UEM took part in training or job shadowing organised by Partner Universities – 1 in the University of Niš, 1 in the National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute".

It is also worth mentioning that on 24-28 June 2019 the University of Ecology and Management in Warsaw organised Staff Week for representatives from Partner

Universities, which was devoted to the issues concerning education systems in Poland and Partner Countries, quality assurance in education - external and internal instruments, structure and scope of tasks of the most important units at universities, possibilities of educational and research cooperation between Partner Universities, plans concerning further cooperation within Erasmus+ Programme and dissemination of results of projects KA-107 2016, 2017, 2018 within Erasmus+ Programme. During the Staff Week representatives of Partner Universities shared good practices and discussed main problems during realisation of projects.

This event has strongly contributed to:

- development and realisation of the internationalisation strategy of Partner Universities;
- learning the structure, organisational culture, and way of operating of the Partner Universities;
- exchange of experiences related to structures, mechanisms and improving the quality of education and quality assurance tools;
- improving the quality of education and services provided for students;
- improving procedures and support mechanisms for the international exchange of students, staff, and teachers between Universities;
- developing and exchanging ideas for cooperation within research and development activities;
- facilitating further integration of the Universities from Partner Countries with the European Higher Education Area;
- exchange of good practices connected with breaking social, legal, and environmental barriers of cooperation;
- promoting intercultural communication and a better understanding of European values.

- f. **Description/main results:**

My five-month stay in Warsaw was one of the best things that have ever happened to me and I would like to thank the University of Ecology and Management in Warsaw for making that happen. I have met a lot of people during my Erasmus period and I am still keeping in touch with them. I travelled throughout Poland and

Europe with friends I met and that experience has developed me. I would especially like to thank professor Izabela Sobierajska for inspiring me and giving me a whole different approach to urban design. Also, a big thanks to Anna and Paulina at the Erasmus Office for being there for me and other students. Hopefully, we will meet again soon! Poland is a lovely country and will forever have a special place in my heart.

- a. **Name and surname:** **Liridona Ibrahim**

- e. **Funding:** 4 275 €
- f. **Description/main results:**

I think that everyone should try to study abroad once in their lifetime. Everyone should live this experience at least one time. It is so good to study, travel, celebrate, meet new people and cultures, taste new food, learn new hobbies and put yourself to the test. I would like to thank Warsaw to help me realized how much more new things I have to learn in life. I also want to express my gratitude to everyone I met even for the five minutes that made this exchange into the best memories for this life-changing experience. It was a great pleasure being a part of the University of Ecology and Management in Warsaw.

2. Mobility of academic staff members for conducting didactic classes for students in Partner Universities

- a. **Name and surname:** **Vladimir Zikić**
- b. **Sending University:** University of Niš (Serbia)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)
- d. **Duration of mobility:** 15.05.2019 – 19.05.2019
- e. **Funding:** 1 255 €

I am very pleased with the response of students of the University of Ecology and Management in Warsaw when I taught them material related to the biology of parasitic wasps, the mechanisms of parasitism of plant lice and caterpillars, and the practical use of parasitoid wasps in biological control. Despite the classes, I spent two days visiting Kampinoski National Park with professor Dawid Marczak and demonstrate the methods of collecting and growing both parasitoids and their hosts. As a result of our cooperation, the first manuscript was prepared for publication in a journal with a high IF.

- a) **Name and surname:** **Dawid Marcza**
- b) **Sending University:** University of Ecology and Management in Warsaw (Poland)
- c) **Receiving University:** University of Niš (Serbia)
- d) **Duration of mobility:** 29.04.2019 – 03.05.2019
- e) **Funding:** 1 535 €
- f) **Description/main results:**

As part of the mobility, I gave 8 hours of lectures delivered in Serbian at the Faculty of Sciences and Mathematics. The lectures were covered issues related to my professional work: insects protection and management of valuable forest complexes to protect deadwood resources. The mobility also included a

meeting with the authorities of the Institute of Biology and Ecology – Professor Dr Perica Vasiljević – Head of the Institute of Biology and Ecology, as well as staff and students of the first and second cycle studies, and PhD students. During the meeting we discussed the research carried out since one year in scientific cooperation led by me, Prof. Dr Vladimir Žikić, and Dr Saša Stankiević in the field of insects – parasitic wasps of the family Braconidae in Poland and selected groups of beetles in southern Serbia. The cooperation is developing very well and should be summarized in joint scientific articles in the future.

During the mobility, despite a day with classes at the university, it was possible to organize 4 field days devoted to deepening cooperation and joint exploration of the surrounding environment. The visits included Sicevacka Klisura Nature Park, Jelašnička Klisura canyon reserve, Suva Planina massif, Pčinje Valleyreserve. Under trips were conducted joint field research, and in mountain villages, thanks to the great kindness of residents the elements of ethnography and folk culture of southern Serbia were learned. Spending active 5 days in the company of Serbian friends resulted in improving my language skills in Serbian. For me, Serbia is a country where I feel at home, and the citizens of southern Serbia are some of the kindest, helpful, and friendly people I have met during my European explorations.

- e. **Funding:** 1 620 €
- f. **Description/main results:**

In March 2019, thanks to the Erasmus+ Programme, I had a chance to conduct week-long lectures for students at the Faculty of Design of the National University of Architecture and Construction of Armenia. The topic of the lectures and related workshops were issues of graphic design and visual communication, including history and contemporary typography in Poland, graphic grid system, wayfinding system, in

the context of architecture. During my stay in Yerevan, I had the opportunity to also give a lecture on “Typography of Polish Posters” as part of the International Conference on Typography “The Magic of Letter Art – Symposium” under the patronage of, among others, the German Embassy in Armenia.

- a. **Name and surname:** **Bogdan Gorczyca**
- b. **Sending University:** University of Ecology and Management in Warsaw (Poland)
- c. **Receiving University:** Azerbaijan Technological University (Azerbaijan)
- d. **Duration of mobility:** 20.05.2019 - 24.05.2019
- e. **Funding:** 1 620 €
- f. **Description/main results:**

The visit to Azerbaijan Technological University in Ganja took place from 20th to 24th May 2019. The main aim of the mobility was to conduct teaching activities to improve students' proficiency in methodology and research techniques, as well as to share with colleagues from Azerbaijan the competencies in the area of quality assurance in higher education.

My stay in Azerbaijan started in Baku, a city with extraordinary architecture, a mixture of history, and impressive modern buildings designed by the world's best architects, e.g. Zaha Hadid. There is also an important Polish trace here, as at the beginning of the 20th century three Polish architects held the position of the chief architect of the city of Baku.

The main part of my mobility was at Azerbaijan Technological University in Ganja. Here I gave two lectures focused on improving students' skills in data collection and methods of solving research problems. In addition, I conducted a seminar for teaching staff on the Polish higher education system. The

meetings were attended by both students and academic staff of the university. They were held in the form of workshops rather than a traditional lecture, with a lot of group work, student presentations, and lecturers evaluations. This was very well received by the participants, as the majority of classes at their university are conducted in lecture form, while they wanted more active methods.

The classes I conducted with the students and teaching staff were a pleasant and valuable experience for me – almost all participants were open and active, eager to work in teams.

Apart from teaching, I had the chance to watch the graduation ceremony and interact with students in an informal way. In Azerbaijan it is prohibited to take pictures of women without their permission, however, it does not mean that they do not want to be photographed!

The mobility was an opportunity not only to meet people represented different culture but also to see the extremely interesting surroundings of Baku (mud volcanoes, a gorge forming a remnant of the Caspian Sea) and the charming mountain lake Goygolnear Ganja, located close but already in the neighbourhood of a militarised zone. Even then, the smouldering Azeri-Armenian conflict was already casting a shadow over the daily lives of these people. Unfortunately, soon after I left, it escalated into bloody clashes.

- f) **Description/main results:**

As part of the Erasmus+ Programme, I had the opportunity to visit the University of Applied Sciences in Ferizaj, Kosovo. During my five-day stay, I had the opportunity to conduct lectures for local students. Through the mobility, I prepared lectures on the following topics: Leadership in cooperation on the basis of clusters in Poland (four hours), Psychology in the management in international organizations (two hours), and Strategic alliances – how to manage cooperation (two hours). During my stay, I also had the chance to observe how lecturers conduct their classes and which teaching methods they use. The staff of the international relations office and University authorities created space and possibilities for the flow of knowledge and exchange of experiences with teaching staff working at the University. The mobility allowed me to acquire new practical skills and gain valuable international experience.

During the period from 19th to 23rd March 2021, in the framework of Erasmus+ staff mobility for teaching, I stayed at the University of Ecology and Management in Warsaw, Poland. Within the

mobility I conducted 8 hours of lectures with students of Architecture and Interior Design. The classes were mainly focused on design and furniture production. These classes helped me to gain new practices which will strengthen my professional experience.

Despite the classes, I also had some activities which were focused on the cooperation between the two Universities.

In addition, during my free time, I have visited many attractive places which Warsaw possesses. In general, I am very happy with the mobility and I hope I will have the opportunity to make other such visits.

- e. **Funding:** 1 800 €
- f. **Description/main results:**

I took part in the Staff Mobility for Teaching under the Erasmus+ Programme. I have visited the University of Ecology and Management in Warsaw within the period from 17th to 21st May 2021. First of all, I would like to express my great gratitude to the mobility organizers - WSEiZ Erasmus+ Office. During my stay, I had the opportunity to

teach WSEiZ students on the issues of Post-Soviet integration and the peculiarities of the law of the Eurasian Economic Union. We also discussed the economic and social results of Poland's membership in the European Union. During the lectures, I have enriched my vision on European Union realities, on the other hand, students and colleagues from WSEiZ gained some knowledge about the integration processes in the Post-Soviet area. I strongly believe that teaching mobility exchange allows us to better understand our cultures, societies, and the processes which take place in our countries. It contributes to students' knowledge about taught subjects and the enhancement of the professionalism of the teachers. I would like to thank once again the WSEiZ Erasmus+ Coordinators –Ms. Karolina Urban and her colleagues for the cordial hospitality and wonderful teaching conditions created at WSEiZ. Thank you!

3. Staff mobility for training

- a. **Name and surname:** **Nataliia Sokolova**

- d. **Duration of mobility:** 24.06.2019 – 28.06.2019
- e. **Funding:** 1 255 €
- f. **Description/main results:**

I am working as the administrative coordinator for the Erasmus +

programme at the Faculty of Sciences and Mathematics of the University of Niš, Serbia. I have visited the University of Ecology and Management in Warsaw, Poland, in June 2019. I have great memories regarding this mobility. The mobility has allowed me to improve professional and language competencies as well as the capacity to adapt to different cultures and working systems. Besides, it is significant for the quality improvement of project implementation under the Erasmus + programme.

In addition, it helped me to increase creativity and open-mindedness as well as the chances of getting an academic and professional promotion.

Thanks to this mobility, I gained new knowledge of Poland and the history of the Polish people. I have learned a lot about the history and culture of Poland and Ukraine and other countries represented at the Staff Week.

Last but not least, Paulina Wąż and Karolina Urban made my stay at the University of Ecology and Management extremely enjoyable. I felt like I was at home. The two of them are real professionals in this Erasmus + business.

I hope to have the opportunity to visit the University of Ecology and Management once again as well as the beautiful Warsaw.

- a. **Name and surname:** [NataliiaMarynych](#)
- b. **Sending University:** Sumy State University (Ukraine)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)
- d. **Duration of mobility:** 24.06.2019 – 28.06.2019
- e. **Funding:** 1 255 €
- f. **Description/main results:**

The mobility to the University of Ecology and Management in frames of the Erasmus+ Programme was an excellent opportunity to get new knowledge and experience and make new acquaintances with awesome people. It helped me to understand better the specifics of working with the Erasmus+ Programme and to connect with other HEIs. It was pretty interesting to share

the experience of running mobility programmes, in particular Erasmus+ KA1, with the representatives of other universities, share the achievements of SumDU, and find out the new information from the European HEIs. The meetings with the WSEiZ University management and International Affairs Office team were held within the International Erasmus+ Staff Week where the presentation of SumDU participation in Erasmus+ KA1 projects took place, as well as a discussion of the joint project results. In addition, we discussed further activities for the future plans.

- a. **Name and surname:** **Armen Bubushyan**
- b. **Sending University:** National University of Architecture and Construction of Armenia (Armenia)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)
- d. **Duration of mobility:** 24.06.2019 - 28.06.2019
- e. **Funding:** 1 340 €
- f. **Description/main results:**

I would like to express my impressions of participation in the KA107-2018 project at the University of Warsaw Ecology and Management within the framework of the

Erasmus + agreement. It was a big pleasure for me to take a part in the Staff Week organized by the WSEiZ from 24th to 28th June 2019.

One of the main outcomes of my mobility was the exchange of experience with other Staff Week participants. I am sure that our universities and countries will cooperate which will help to strengthen our relations. I also want to mention another big milestone of having a strong relationship and connection. It is great to make research and investigations in the same field but in different countries. I believe that sharing experience was interesting, fun, and valuable for both parties either in research and overall development.

- b. **Sending University:** University (Serbia)
- c. **Receiving University:** University of Ecology and Management in Warsaw of Niš(Poland)
- d. **Duration of mobility:** 04.11.2019 - 08.11.2019
- e. **Funding:** 1 535 €
- f. **Description/main results:**

My first mobility under the Erasmus+ Programme took place in Niš. During my mobility, I had the opportunity to give two presentations about the WSEiZ to students and staff at the Faculty of Civil Engineering and Architecture and at the Faculty of Sciences and Mathematics. These presentations

were focused on issues related to the possibility of going on an Erasmus student exchange programme and encouraging participation in the programme among students of the University of Niš. In addition, I was invited to a presentation of the students' works studying architecture at the University of Niš, where I could compare the works of WSEiZ and Serbian students. During my mobility, I also had a chance to visit some of the most important places in Serbia.

The mobility in Serbia was a great experience for me because I could meet new people and exchange

experiences with them, as well as to improve my knowledge of education and student exchange. I hope that many students from Serbia will come to Poland to study and get to know Polish culture.

- f. **Description/main results:**

My mobility to WSEiZ in Warsaw was wonderful. I enjoyed every minute of being in Poland and the staff of WSEiZ had a lot to do with it! Great greetings from them and a tour through Old Town were very pleasant and I got to know Polish history and culture in person. Getting acknowledged with the program that WSEiZ and Erasmus+ have offered helped me grow as a specialist in higher education and as a member of the International Collaboration Center of the Semey city's University of Shakarim I had an indispensable exchange of experience from colleagues from Turkey and Kosovo. Also, we have to notice that we have all the chances to start some Educational Programs with the aforementioned colleagues in the foreseeable future!

These kinds of events, in my opinion, are very useful for any specialist in the higher education sphere since the vitalness of the experience exchange cannot be overrated at any condition!

e. **Funding:** 1 255 €

f. **Description/main results:**

During the period from 28th June to 02nd July 2021, in the framework of the Erasmus + Program Staff Week, I stayed at the University of Ecology and Management in Warsaw in Poland.

As part of the mobility, I held meetings with Vice-Rector Dr. Justina Kłys, Vice-Rector dr

hab. eng. Krzysztof Póltorak and colleagues from different universities Asset Abylmazhinov and Alexey Klivenko from Shakarim State University of Semey and Deniz Can Vural and Melike Nur Şahin from Alanya HEP University who also took part in the Erasmus+ Mobility.

During this period, we took part in numerous meetings on different topics. Among others, the meetings were focused on socio-economic environment, implementation projects, financing of the higher education system in Poland, etc.

The visit encourages us to continue forward with other projects in collaboration with the University of Ecology and Management in Warsaw in Poland. In addition, during my free time, I have visited many attractive places which Warsaw possesses.

In general, this visit was so fruitful and I hope to have the opportunity to make other such visits in the future to increase cooperation between the two institutions. Those days spent at the University of Ecology and Management in Warsaw were worth spending days, interesting and very formative.
